**“The best part about being
a patient at Derry Medical
Center is being able to get
an appointment when I need
it—even the same day!”**

**\$600 for a
sore throat?**

*This doesn't have
to happen to you!*

We know that you have busy lives, and our hours are designed to fit whatever schedule you have.

Take a look at our hours. We are open almost as many hours as the local urgent care center—and never charge more than your regular office visit copay. If you have an immediate need to see one of our providers, please remember that you can most often be seen within two hours of calling.

As a Derry Medical Center patient, you have immediate access to primary care with the providers you already know and trust.

Save your time and money. Don't bother with long waits at urgent care with doctors who don't know you. You can often be seen at any of our offices within two hours of calling—and *it's always just an office visit copay.*

Remember: sore throat, fractured bone, wicked splinter, deep cut, ear infection, mystery rash or almost anything else—we are here for you!

Don't worry—our flu clinics begin the end of August. Call 603-537-1300 for more information.
