

## DMC COVID-19 TESTING POLICY AS OF 1/14/21

Please note that COVID-19 testing is for established DMC patients only

1. **Patients WITH SYMPTOMS** (e.g. fever, cough, shortness of breath, new loss of taste or smell, etc.) should call the office at **603-537-1300** to schedule a telehealth visit (by phone or video) with a provider. If your provider suspects COVID-19, we will set up an appointment for you to receive a **drive-up rapid test** at our outdoor location. Test results are typically provided within four hours.
2. **Patients with NO SYMPTOMS** but who have had a high-risk exposure (e.g. someone in your household tested positive for COVID-19) **AND** are at least one of the following:
  - a. An at risk individual (e.g. 65+, chronic disease, etc.)
  - b. A risk to the community (e.g. healthcare worker, teacher, first responder, etc.)

Please call to schedule a telehealth appointment to discuss your risk factors. Your provider may recommend an appointment for a **PCR test** (also at our drive-up location) which currently takes approximately 3-5 days to receive test results.

3. **Patients with NO SYMPTOMS** who are not in one of the categories above but wish to be tested are encouraged to contact their DMC provider for an evaluation.
